Grow TULIPS

**of Surpassing
Beauty this
easy way**

Admired by everyone for brilliance of color and variety, beauty of shape and gorgeous display, the Tulip has also earned its place in your garden because of its hardihood and resistance to all weather conditions. Once planted, the healthy Tulip bulb seems to defy all caprices of Nature, and to thrive under conditions far too rigorous for less sturdy flowers.

ALMOST ANY SOIL WILL DO. Practically any garden earth ordinarily used for other flowers is suitable for the Tulip. However, the bulbs should not be planted too often in the same bed without fresh soil or without giving the bed a "rest" from Tulips now and then. There should, of course, be adequate drainage **ALWAYS.**

BULBS such as Tulips, Daffodils and Hyacinths, as well as miscellaneous bulbs, must be planted in the fall. For Tulips there are two ways of planting, shallow for increase of bulbs, and deep for permanency. When planting shallow, plant in September, October and November, or later if ground is not frozen. When following the deep method of planting, the bulb may be planted any time after arrival of the bulbs.

COMPLETE INSTRUCTIONS FOR BOTH SHALLOW AND DEEP PLANTING WILL BE ENCLOSED WITH YOUR ORDER. KINDLY FOLLOW INSTRUCTIONS AS GIVEN FOR BEST RESULTS.

FOR OUR CUSTOMERS IN THE DEEP SOUTH: Ask for special instructions to be included with your order for locations in Florida, places bordering the Gulf of Mexico, and southern California. These new instructions will help you to have success with your bulbs where otherwise you have had failure.

Greetings

FROM THE CITY OF TULIPS

There is a time each year when the Tulip takes command of the clean, thrifty city of Holland. In years past, hundreds of thousands of people have invaded this lakeshore community to drink in the beauties of springtime's most welcome flower, and Holland has provided a daily round of festivities to entertain its guests.

The Festival dates for "Tulip Time" are set for May 18th to 22nd. However, the blooming dates are during the month of May, and if you wish to come to see the greatest amount of Tulips in bloom, please be guided by your local weather conditions, for the blooming season will depend on whether the season is early or late. If in doubt, we will gladly advise you, if you write in and request the information.

Meanwhile, the Nelis Nurseries, who have always played a quiet but important part in this annual Tulip Festival, will do their utmost to keep alive the culture of Tulips, which their forefathers began centuries ago. In its extensiveness of varieties and gorgeousness of color, the Nelis Tulip Farm is undoubtedly the most colorful mass display of Tulips to be seen anywhere in the world. We have planted as many Tulips as in past years, and our display will be open to the public for those who are able to come to enjoy the beauty of "Tulip Time."

NELIS TULIP CITY COLLECTION

The following blooming size bulbs are offered to you at a remarkable saving in price. The average size of the bulbs offered here is from $1\frac{1}{8}$ to $1\frac{1}{4}$ inches in diameter, which is smaller than the exhibition size, as offered on the other pages of our catalog. This size is ideal for mass planting or for cutting purposes. All varieties are separately packed and labeled.

Argo. Mottled yellow.	Dillenburg. Orange.
Black Eagle. Deep purple.	King George V. Rose.
Salmon Queen. Salmon.	King Harold. Maroon.
Carrara. White.	Lilac Wonder. Lavender.

Dear Customer:

In presenting to you our 1949 Bulb Planting Guide, I wish to add a few words to tell you what we have accomplished during the past year.

When I personally meet many of our garden friends, they ask: "What have you accomplished lately, have you anything new to offer?" I wish to advise you first of all that new things are not easily obtained. Quite a few of the new items aren't worthy to be called new and are sometimes even worse than the older types. Therefore, before offering anything new to the general public, it is our policy, for your protection as well as our own, to try them out so that we may really know what they are like. If in our opinion they are worth while, we are pleased to offer them to you.

If you plan to visit our 1949 display, you will see for yourself what I wish to say. There will be forty or fifty new varieties not offered in this book on trial for 1950. They are products of the world's outstanding hybridizers of bulbs, many direct from the hybridizers and never before shown in this country. Many are new varieties produced by selective crossings. Others are developed by X-ray; sports; and the latest method, Atomic Radiation.

In the realm of Tulips, we will show you a new line of outstanding Lily-Flowering types, Parrots and Doubles, as well as the regular single varieties, in which Dardanelle is probably the most outstanding.

In the line of Daffodils, many worth-while varieties have been added; and for those of you who know only the yellow Trumpet Daffodil, a surprise is in store for you, if you could but see all the lovely things man has produced through nature. The grand, symmetrical beauty of these new varieties is breath-taking, and the permanency of Daffodils is for you to enjoy, five, ten and many years besides.

Our prices for 1949 as a whole have been lowered, as we realize full well that it is everyone's desire to bring prices back where they belong. On the other hand, we must contend with constantly increasing costs, mainly freight charges and a thirty to forty per cent increase in parcel post rates, which we prepay on all cash orders over \$3.00.

I am also taking this opportunity to thank all of you for your past patronage and we say again, as in the past, if new and better things become available, Nelis Nurseries can and will get them for you.

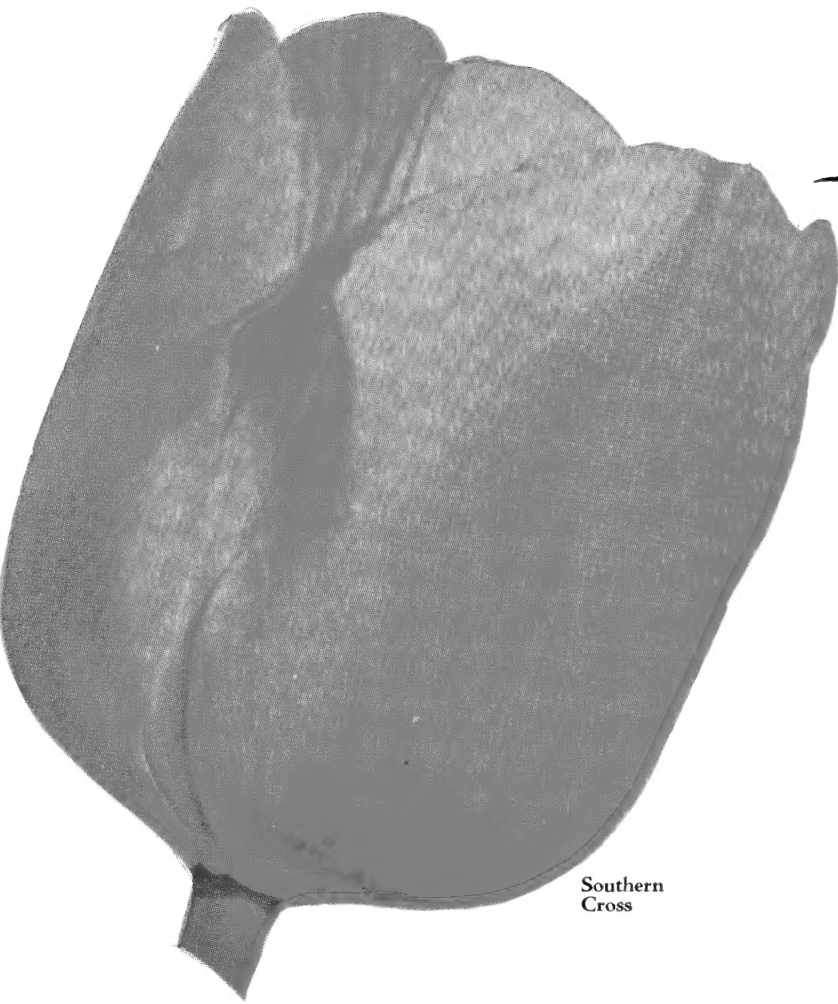

Yours very truly,

NELIS NURSERIES INC.

GUARANTEE

Except where clearly stated otherwise in this catalog, we unconditionally guarantee every bulb we ship out to be strictly top size, and to be absolutely true to name. All bulbs shipped by us will grow and bloom under ordinary conditions. We have, however, no control over unfavorable weather or soil conditions, improper planting, neglect, moles or mice, and therefore cannot assume responsibility after they reach you. Stock not reaching you in first class condition should be reported within 10 days after receipt, and will be replaced free of charge if so received. After ten days it is mutually agreed that stock is satisfactory. Do not return bulbs or plants unless so instructed by us.

NEW SUPER-GIANT TULIP

DARDANELLE. 30 inches. This giant scarlet-red Tulip, of immense size, great strength of stem and enormous sized blossom, attracted considerable interest at our 1947 Tulip Exhibit at Holland, Michigan.

We can now offer a limited number of these bulbs, from our stock of only 250 bulbs. When this amount is sold, we can no longer accept any more orders for this year. Therefore, if you wish to try this variety, be sure to order early.

Each \$2.25; 3 for \$6.50.

Latest Novelty and

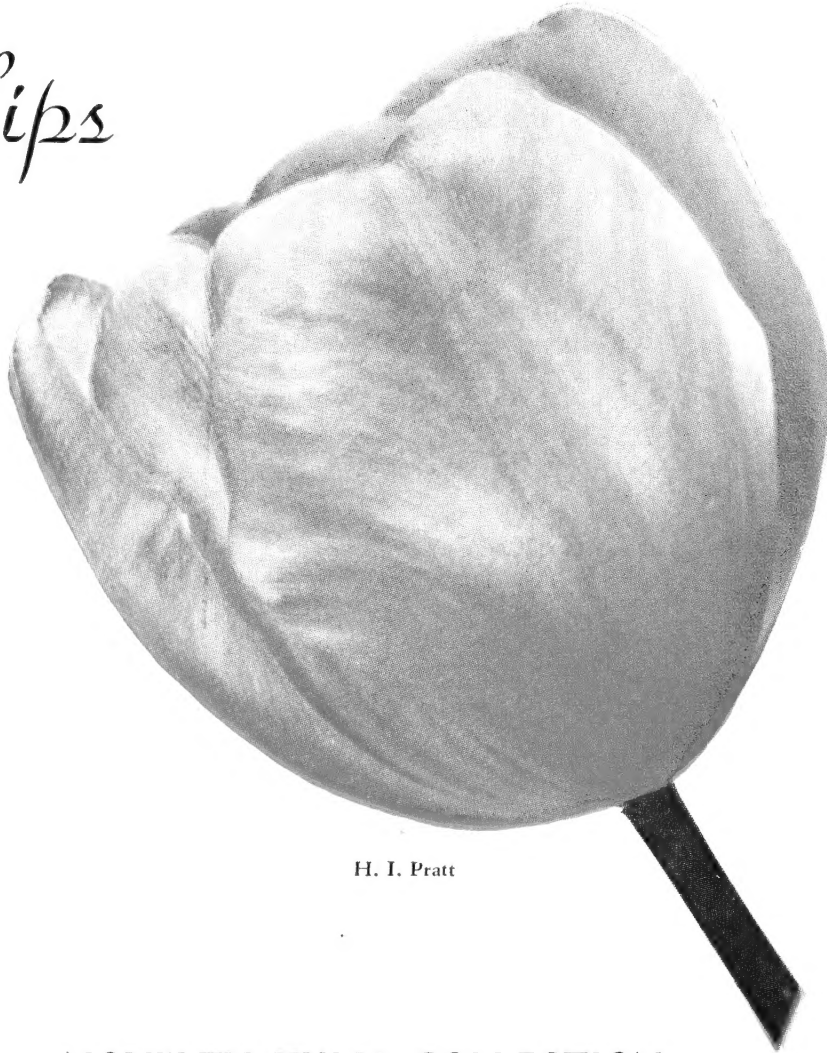

It has been our policy for years to show to the American public at our extensive display fields, the latest varieties available in Tulip bulbs. Our 1949 listing is as nearly complete as can be desired, and contains varieties which probably will not be handled by the average seedsman or grower for another decade.

	Per 3	Doz.	100
ALICE TIPLADY. 26 inches. An unusual delicately shaded flower of soft cream to soft orange blend, listed by the originator as "champagne" color. The pointed petals are slightly tipped lavender	\$1.00	\$3.25	\$24.00
AMERICAN FLAG. 26 inches. F.C.C., A.M. Dark red with broad white lines and blue base. So named because the three colors resemble the American Flag. A real novelty65	2.15	15.00
ATKA. 30 inches. A new salmon-rose beauty of outstanding character, which has so long been needed in the old Clara Butt class65	2.15	15.00
BACAROLA. 29 inches. A Tulip of unusual strength with foliage that shows this breeding characteristic, topped with a huge flower of deep red-dish purple75	2.35	17.00
BLACK GIRL. 28 inches. A.M. Outstandingly lovely, the newest of the so-called "Black Tulips." Large flower, strong and sturdy growth. Especially lovely when planted with light Tulips for contrast.60	2.05	14.00
BLANCA. 30 inches. F.C.C., A.M. The first pure white Tulip we have ever seen. The color, form and strength leave nothing to be desired. We are fortunate to have enough stock available so we can include it in this year's offering65	2.20	15.50
BLUE PERFECTION. 26 inches. A refined flower of lavender-blue, in which the blue predominates. Medium size with pointed petals65	2.20	15.50
DARLINGTON. 30 inches. A.M. An outstanding large rose-scarlet flower of cup shape, with tips of the outer petals slightly reflexed. One of the finest.80	2.65	19.00
DORIE OVERALL. 26 inches. Outside of this unusual flower is deep petunia-purple with lighter edge, while the inside is tinted light blue. A broad, large flower. F.C.C.	1.20	4.00	30.00
FANCY. 27 inches. Golden yellow flames on a background of coppery orange, with an olive-green base. Yellow pistils and dull violet anthers. Open or partly closed, this flower is magnificent55	1.85	13.00
FRINGED LILAC. 23 inches. Lilac-blue flower of medium size, the outer petals of which are finely fringed. A very unusual and beautiful addition to any gardener's collection	1.00	3.40	25.50
GOLDEN MEASURE. 22 inches. Golden yellow inside, the outside slightly lighter in color, with a very narrow band of red. Egg-shaped flower, a real novelty	1.10	3.55	27.00
HELENA COLS. 28 inches. A very large flower of carmine-red, bordered geranium-red. The inside of the petals are geranium-red with an overcast of orange-salmon. Very strong grower and an excellent show variety75	2.45	18.50

JEROEN BOSCH. 28 inches. An unusual color combination of light maroon-red, with the edges of the petals bordered bronze, changing to golden yellow at the very edge. Oval-shaped flower of large size70	2.30	16.50
KING MAUVE. 29 inches. One of the most imposing Tulips of this color. The gorgeously rich purplish mauve flowers are of large size and perfect form, with a very strong and tall stem65	2.15	15.00
LADY HILLINGDON. 27 inches. A delightful color of richly veined orange. White center of the petal has a salmon overcast. Inside has orange blendings with a deep orange-yellow base. This flower is carried on a wiry stem70	2.30	16.50
MARIE NICHOLSON. 29 inches. Outstandingly beautiful rose-red with a glossy sheen. A Tulip of fine shape and great strength. Named for the first president of the American Tulip Society. A Nelis introduction.65	2.15	15.00
NARDI. 27 inches. Another newest introduction of the giant flowering type, producing immense blooms of American-Beauty-red. A real flower marvel, with a disarming rosebud shape characteristic of the early stages65	2.20	15.50
NEW ORLEANS. 28 inches. A flower of intense claret-crimson, with blue base. A strong, vivid color65	2.20	15.50
SONATE. 29 inches. A blending of orange-red softening to a golden yellow at the edge, which was a spectacular success at our display field last year. You will find this variety blooms longer than the majority, and will still be in fine shape when others are long gone60	2.00	14.00
SOUTHERN CROSS. 31 inches. A delightful blend of sulphur-yellow, changing to golden yellow, flushed warm apricot; inside golden yellow. Fine exhibition variety of unusual attraction65	2.15	15.00
THE TORCH. 22 inches. A new variety with a globular flower of an unusual color combination of scarlet flames on a yellow background65	2.20	15.50
ZOMERSCHOON. 20 inches. An unusually lovely Tulip, soft salmon-pink flames on a silvery background. This noble variety, long thought lost, is at least 300 years old, records stating it was planted in the 17th century, and the only remaining variety dating back to the "Tulip Craze" in the Netherlands when fortunes were paid for a single Tulip bulb. A few bulbs have been found still in existence, and we can offer them now65	2.20	15.50

Nelis Giant May-

The modern Giant May-Flowering Tulip is the result of three separate experiments of Tulip breeding, formerly classified as Darwin, Cottage and Breeder Tulips. Through the inter-breeding of the three before-mentioned class, the terms Darwin, Cottage (or Hybrid) and Breeder Tulips still listed in some catalogs have become so confusing that even among the best informed there are many clashes of opinion. Since the modern Giant May-Flowering Tulips contain the blood of all the three preceding crosses in proportions unknown to even the plant breeders themselves, it seems useless to maintain this class distinction any longer, as they are both scientifically and practically absolutely meaningless. We, therefore, will list them as Giant May-Flowering Tulips. The term May-Flowering is based on our Michigan climate, and in southern locations the blooming period will, of course, be earlier. In revising our lists for 1949 we have eliminated many varieties which we have considered to be surpassed by later introductions.

Named in honor of Mrs. Ethel Telling, former chairman of the Holland, Michigan, Tulip Time Committee for her untiring efforts in promoting and directing this great floral festival70	2.25	16.00
MRS. JOHN T. SCHEEPERS. 24 inches. One of the largest bright yellow Tulips, oval-shaped flower carried on a straight stem. Highly recommended50	1.55	10.50
MRS. MOON. 26 inches. We are glad to be able to offer this variety again, as during the war it was replaced with other yellow varieties. Beautiful all yellow vase-shaped flower with pointed petals. Distinctly perfumed55	1.75	12.00
MR. VAN ZYL. 25 inches. A glorious dark rose colored Tulip, with a broad, white border; lovely clear and bright interior. A splendid new novelty which we can well recommend50	1.55	10.50
NIPHETOS. 27 inches. A.M., F.C.C. A gorgeous new variety of soft sulphur-yellow, inside of bloom primula-yellow, with yellow anthers50	1.55	10.50
ORANGE DELIGHT. 29 inches. A good orange is still not plentiful among Tulips. This lovely orange colored Tulip leaves a permanent impression on all that see it. Strikingly graceful, with perfect form60	2.00	14.00
ORANGE GLOW. 32 inches. A magnificent variety of golden yellow overlaid with orange and buff; wiry, tall stem. A splendid and striking new variety50	1.70	11.50

ORCHID. 24 inches. Large flower of lavender and orchid blendings. Outstandingly strong and sturdy grower, coming into bloom rather early60	2.00	13.50
OSSI OSWALDA. 24 inches. A striking new novelty of creamy white edged rose, resembling Picotee. This is a chameleon type Tulip, changing by the day, until at its height it is a pure rose50	1.70	11.50
PANORAMA. 25 inches. Among the older varieties, this Tulip has been able to hold its own. Its flower is beautiful coppery orange, with olive-green base. Has very long-lasting qualities.50	1.70	11.50
PICOTEE. (Lily-Flowered.) 20 inches. Snow-white with a margin of rose, pointed and reflexing petals55	1.85	12.50
PINK PEARL. 26 inches. Lilac-pink on white ground, inside rose. An unusually fine Tulip, and the only one in this color50	1.70	11.50
PRIDE OF HAARLEM. 27 inches. Brilliant American-Beauty-red; most popular Darwin. Sweet scented50	1.55	10.50
PRIDE OF ZWANENBURG. 28 inches. A beautiful salmon-rose Tulip with a narrow edge of blush-rose at margin. Except for the paler margin it resembles a glorified Clara Butt in color, producing a wonderful tall, salmon-pink bloom, for which every connoisseur has been looking for years55	1.75	12.25
PRINCESS ELIZABETH. 26 inches. Clear deep pink, changing to rose-pink. It is lovely with a well shaped flower, giving it added attraction.50	1.55	10.50
PRINCESS ELIZABETH MAX. 28 inches. Identical to Princess Elizabeth, but much larger and taller than the older variety55	1.75	12.00
PRINCESS MARY. 31 inches. Long, slender, egg-shaped flower of deep rose-pink shaded deeper on inside of flower with a paler marking down each petal. Base white with bluish halo. Truly a grand show variety which shows to its greatest advantage if planted in partial shade90	2.30	16.50
PRUNUS. 24 inches. An unusual color of salmon-pink with lighter edge. This lovely variety is offered in place of Clara Butt40	1.35	9.00
ROSABELLA. 27 inches. Very soft rose, with lighter edge, shaped like and resembling a rose-bud. We recommend this lovely variety50	1.55	10.50

Late Flowering Double Tulips

These double varieties are extremely showy, with flowers as large as Peonies, and come in extraordinary range of colors. They have created a remarkable interest, and in the past nearly all the available supply has been bought by our "Tulip Time" visitors, who were able to see them in bloom. As real novelties we want to recommend them for exhibition or show purposes. Of latest introduction, quantity of bulbs is limited and early orders are more apt to insure delivery.

Novelty Parrot Tulips

Orange
Favorite

Here is a complete list of the most outstanding novelties in Parrot Tulips. These new Parrots, in contrast with the older varieties, all have heavy, firm stems to keep the flowers erect, and are a valuable addition to any garden. These new types, strange to say, have all sported from the most popular varieties long known to the flower lover. Most everyone has admired Parrot Tulip Fantasy, which variety is by far the best known of this new type, and which has sported from the well known Darwin Tulip, Clara Butt. They are so entirely different from all the other flowers that they provoke the startled admiration of all who see them, and are now available at greatly reduced prices.

	Per 3	Doz.	100
BLUE PARROT. 26 inches. A glorious flower of bright violet, shading to steel-blue. As blossom opens it gradually changes to a most pleasing blue; very large flower with strong stem. Sport and color of Darwin Tulip, Bleu Aimable. Highly recommended	\$0.50	\$1.55	\$10.50
FANTASY. 20 inches. Beautiful salmon-pink with a much darker interior, outside marked with emerald-green. This variety has made a remarkable hit. Sport and color of Darwin Tulip, Clara Butt65	2.15	15.00
FIREBIRD. 20 inches. A grand new addition to the Parrot class, of a penetrating red, with the center of the beautifully ruffled petals marked green on the outside75	2.50	18.00
GADELAN. 22 inches. Violet and mauve, with purple shading, center white; a beautiful variety of gigantic size and excellent substance. Sport and color of Darwin Tulip, Sensation. Highly recommended	1.35	4.50	34.00
LADY DERBY. 28 inches. Lilac with lighter edge, center white, edged blue; a very sturdy and extra large flower. Sport and color of Darwin Tulip, Circe65	2.15	15.00
LAETITIA. 26 inches. A new tall-flowering Parrot, with pink to rose shades, and the usual green blotches on outer petals. This variety is a sport of Darwin Tulip, Massachusetts	1.05	3.55	27.00
MISS KAY. 27 inches. A gorgeous new addition to the Parrot listing with a large, exquisite bloom of dark crimson-maroon. Sport and color of Darwin Tulip, Allard Pierson65	2.20	15.50

Botanical Tulips

These wild Tulips come in lovely odd shapes, many with reflexed petals and curiously twisted and reflexed foliage. They belong in the rock garden where they thrive and increase if left in the ground from year to year. Plant them in groups of six to twelve bulbs among the rocks in fairly well drained pockets. We have eliminated all varieties of inferior and poor blooming qualities, and only those varieties that have given satisfaction under American conditions have been listed.

Narcissus or

In order to have a beautiful bulb garden, Narcissi should be planted freely. They thrive in practically any climate in the United States, and are not only excellent for outdoors, but millions are used every year for forcing indoors. Their graceful form, beautifully shaped trumpets and cups, and the long, straight stems have made them favorites for cut flower purposes with every American gardener. We have added many new varieties to the old favorites. For a real revelation, you should try some of the new types. They are really exquisite.

That you may understand the different types coming under the Daffodil classification, the explanation below should be read:

The term Trumpet Daffodil means that the trumpet is as long or longer than the perianth segments, regardless whether the color is lemon, yellow or white.

The term Incomparabilis means that the cup or crown measures from one-third to nearly the length of the perianth segments.

The term Leedsi means that the perianth is white, the cup is short, either white, citron or sometimes pink or apricot.

The term Barri means that the cup or crown measures less than one-third the length of the perianth segments.

The term Jonquil means that the foliage is very long and narrow, or round, in other words, rushlike. The flowers buttercup-yellow, small, but very fragrant.

The term Poetaz means the bunch-flowering type, producing from 6 to 12 flowers per stem, and in all cases deliciously fragrant.

ACTAEA. (Poeticus.) Pure white perianth, cup yellow, edged red. We consider this the best of the common Poeticus varieties. Fragrant. M.	\$0.35	\$1.15	\$ 7.00

BEATS ALL. (Incomparabilis.) Pure white perianth with a flaring cup of chrome-yellow and a rim of deep orange at brim. An outstanding, free-flowering variety of robust growth. ML.60	2.00	14.00
---	-----	------	-------

BEERSHEBA. (Trumpet.) Perianth and trumpet of magnificent proportions. Sturdy foliage and stem. Height 20 to 22 inches. Its color is pure white, and expressive of purity in the highest sense. Those who are forming collections of fine Narcissi rate Beersheba at the top of the large white Trumpets. Received an Award of Merit and a First Class Certificate. M.	1.45	4.75	36.00
--	------	------	-------

BENOY LOVEJOY. (Barri.) Perianth cream-white with frilled and fluted yellow cup stained deep orange at its edge. A good hardy grower which forms nice clumps in a short time. Recommended. M.70	2.25	16.00
---	-----	------	-------

BRIDESMAID. (Incomparabilis.) Pure white, large perianth, with a very large, fully ruffled cup, disklike and delicately shaded cream, edged soft apricot. A flower of appealing beauty. We like it. M.90	3.00

BUSTEIN HUETT. (Incomparabilis.) Large, cream-yellow perianth of broad, overlapping petals, with a flaring and fringed cup of red, broadly edged scarlet, changing to orange in the throat. A real red cup. ME.	\$0.75	\$2.50	\$18.00
CARLTON. (Incomparabilis.) A beautiful variety that is destined to become very popular when widely known. Broad, overlapping perianth with a large expanded cup frilled at brim, the entire flower of a uniformly soft yellow. A magnificent plant of great vigor, very free blooming, early, of long lasting quality. Excellent for exhibition. This variety received an Award of Merit. E.55	1.75	12.00
CHEERFULNESS. (Double Poetaz.) A double form of the famous cluster-flowering Daffodil. Received an Award of Merit. Splendid for garden; late blooming and very fragrant. Frequently called the "Gardenia Daffodil." L.55	1.75	12.00
CHEERFULNESS YELLOW. (Double Poetaz.) The yellow form of the variety listed above, having all the qualities of the older variety. There is still very little stock available of this variety. Very fragrant. L. (Limit 3 per customer)	1.80		
DAISY SCHAEFFER. One of the best of the remarkable new giant Leeds types; the flower is 4½ inches across, with cup nearly 2 inches. Resembles a giant Trumpet, but much more graceful in form. Perianth pure white, with cup opening primrose and turning to light canary-yellow, lighter at the base. Long lemon-yellow stigma and styles add to the color harmony of this remarkable flower, which has captured an Award of Merit and several First Class Certificates. Rich, spicy fragrance. L.70	2.25	15.00
DAPHNE. (Double.) Medium sized flower of purest white, without any trace of another color. A delicate and sweetly fragrant addition. Buds on this variety will not blast or dry up. M.50	1.55	10.50
DICK WELLBAND. (Incomparabilis.) An exhibition variety of great excellence, this variety stands out even in the largest collection of Daffodils. The perianth is pure white, and the cup a brilliant flame-orange, and the startling contrast between the petals and cup make this variety a great beauty. The color does not fade, but rather intensifies with age, and the flower has unusual lasting qualities. Highly recommended. M.75	2.50	18.00
DOUBLE CAMPERNELLI. (Jonquil.) A tiny, double, all golden yellow variety, bearing a cluster of 3 to 4 blooms to the stem. The foliage is round, like other true Jonquils. Very fragrant. L.40	1.35	9.00
EARL WILLIAMS. (Barri.) Large white perianth of fine symmetrical form with a decided yellow overcast. Flat, frilled cup, edged orange to deep golden yellow in the center. M.65	2.15	15.00
EL DORADO. (Incomparabilis.) Bold perianth of golden yellow, with a flaring open cup of deeper golden yellow with frilled edge of orange. Spicy sweet fragrance. M.70	2.25	16.00
FIREGLOW. (Barri.) Golden yellow perianth formed by broad, overlapping petals, with a short ruffled cup edged orange-red changing to orange at the throat. Prolific bloomer. M.70	2.25	16.00

FORTUNE. (Incomparabilis.) This giant in the early blooming Incomparabilis class is outstanding for its size, vigor and free blooming qualities. Fine, flat overlapping perianth of golden yellow with a cup of the same color, overlaid at the rim with a coppery red-orange glow. Height 2 feet. E.	\$0.65	\$2.15	\$15.00
FRANCISCA DRAKE. (Incomparabilis.) Pure white perianth petals of unusual substance, 1½ inches wide, and tinted gold at the base, which shows through on the outside. The cup, wide and deep, is golden yellow at the base, changing to flame-orange at the densely frilled edge. The flowers are held well above the fine foliage, giving the effect of white seagulls in flight. Award of Merit. M.65	2.15	15.00
FRANS LISZT. (Incomparabilis.) One of the most graciously formed and finest proportioned varieties, with white perianth turning to yellow at base and a yellow trumpet with narrow orange edge. Prolific bloomer with a sweet fragrance. ML.	1.00	3.25	24.00

GENERAL MacARTHUR. (Trumpet.) In our opinion the largest and finest golden yellow Daffodil, of enormous size and good form, which leaves nothing to be desired. Late flowering, blooming after all the other Trumpets are through. One of the largest flowers in existence. L.	\$1.20	\$4.00	\$30.00
GLORIOUS. (Poetaz.) Pure white perianth, with a small cup of scarlet-red, producing 3 to 4 blossoms per stem. Pleasant, sweet odor. Advise planting in partial shade. M.70	2.25	16.00
GOLDEN HARVEST. (Trumpet.) An all golden yellow Trumpet variety of fine form. Very early blooming, both in the garden and for forcing. E.80	2.65	19.00
GRETA GARBO. (Incomparabilis.) A beauty and outstanding novelty. Yellow perianth with the largest flaring orange cup we have ever seen available. Stock of this variety is extremely small, and therefore we must limit the quantity. Advise planting in a shady location. M.	1.50		

	Per 3	Doz.	100
HELIANTHUS. (Barri.) Soft yellow perianth with a short, wide open cup, having a distinct edge of clear orange-red, extending golden yellow to the throat. The flower is medium in size, but very striking in its unusually fine and brilliant appearance. M.	\$0.60	\$2.00	\$14.00
IMPERATOR. (Trumpet.) This lovely, graceful Daffodil is considered one of the finest varieties and the best in this class. Perianth and cup creamy white. L.80	2.65	19.00
INGLESCOMBE. (Double.) By far the only outstanding Daffodil in its class. Its color is of purest yellow, without blemishes of any kind, unlike older types which were marred with green in the petals. It keeps its pure color to the very last. Of the doubles, we feel we are offering you the best there is to be had. Received two Awards of Merit. ML.60	2.00	14.00
INSULINDE. (Double.) Double cream-yellow interspersed with shorter petals of deep orange-red. This flower is not too double to be graceful, yet it is attractively full. Sweetly fragrant. M.85	2.75	19.00
INSURPASSABLE. (Trumpet.) Of the new giant flowered Trumpets, we consider this variety the most outstanding midseason bloomer. All golden yellow perianth and trumpet of giant proportions. M.85	2.75	20.00
JOHN EVELYN. (Incomparabilis.) Pure white perianth of very good form. Ruffled cup of rich, golden yellow. Medium height, with sweet fragrance. ML.55	1.75	12.00
KENTUCKY. (Barri.) Canary-yellow perianth of good form, with an open flaring cup broadly edged orange. Tall grower. M.65	2.15	15.00
KILLEGREW. (Incomparabilis.) Bright yellow perianth of well overlapping petals, and a large bright orange-red cup. A flower of wonderful quality and perfect form. M.55	1.75	12.00
KING ALFRED. (Yellow Trumpet.) Received a First Class Certificate. An old variety, but still very good. The finest giant all golden yellow Narcissus. E. Jumbo size bulbs60	2.00	14.00

LUCINIUS. (Incomparabilis.) An outstanding flower of unusually good form and excellent substance of purest self-colored golden yellow. Received an Award of Merit. One of the older varieties, but still very good. ML.	\$0.50	\$1.70	\$12.00
LUNA. (Jonquil.) New. One of the very best of its type, producing 2 to 3 large, very beautiful lemon-yellow flowers on each stem. Very fragrant. ML.60	2.00	14.00
MARY COPELAND. (Double.) A beautiful novelty of the new semi-double type, and termed the most striking new double. The longer petals are pure creamy white, with a golden ray down the center, interspersed with shorter petals of lemon and brilliant orange, giving a three-color effect. Received a First Class Certificate. Very sweetly fragrant. L.75	2.50	18.00
MONIQUE. (Incomparabilis.) Cream-white perianth of overlapping petals of perfect form. Yellow cup with a clearly defined edge of orange. A very nice variety. M.70	2.30	16.50
MONTGOMERY. (Barri.) Medium yellow perianth with a bold extending cup of clear orange-red extending the full length of the cup. Tall grower and fragrant. M.60	2.00	13.50
MOZART. (Incomparabilis.) Latest novelty with nice overlapping perianth of cream-yellow, having a disk-like cup of uniformly deep scarlet and conspicuous stamens of deep yellow. An excellent new introduction. M.70	2.25	16.00
MRS. R. O. BACKHOUSE. (Leeds.) This is the famous "Pink Daffodil." Fine informal perianth of ivory-white, and beautifully proportioned, slim, long trumpet of apricot-pink, changing to shell-pink at the deeply fringed edge. Delicately beautiful but of exceptional substance. Long lasting, and belongs in every collection. L.	1.80	6.00	45.00
NEW AMSTERDAM. (Barri.) White perianth, with an extending cup of deep yellow edged orange half the length of the cup. Well proportioned perianth though the petals do not overlap. M.90	3.00	
ORANGE BLOSSOM. (Incomparabilis.) A beautiful variety worthy of its name. Finely proportioned sulphur-yellow perianth which is slightly tilted backwards, showing to greater advantage its graciously shaped deep orange cup. Tall and sweetly fragrant. ML.70	2.25	16.00
PYGMALION. (Incomparabilis.) Cream-yellow perianth of broad petals, with a fairly long deep golden yellow cup, which is quite ruffled and edged orange-red. ME.90	3.00	
RED GUARD. (Poetaz.) Another winner of an Award of Merit, with perianth of deepest golden yellow overlaid with salmon and a cup of fiery red, making a beautiful and unusual color combination. Heavy spicy odor. ML.65	2.15	15.00
REMBRANDT. (Trumpet.) We consider this the best early all golden yellow trumpet. The trumpet and perianth are extra large and of fine form throughout. E.70	2.30	16.50
RICHARD WAGNER. (Incomparabilis.) Pure white perianth of the finest form, with a flat, golden yellow cup having a narrow orange frilled edge. The perfection of this variety is in its finest form, which the hybridizers have been aiming for. M.90	3.00	22.50

Daffodils for NATURALIZING

SUITABLE FOR GARDEN DISPLAY,
WOODLAND PLANTING OR CUTTING

Practically any soil has been found suitable, and they are grown equally well in the open as among trees and in woodland. Contains a mixture of large Trumpets, Leedsi, Barri and Poeticus types, making a mixture that cannot be beaten for value, and worth much more than we charge for them. Plant at least 8 inches deep, but avoid places where water may collect at any time, as they like drainage.

Try to plant before October 15th, or shortly thereafter, but place your order early, as the demand is increasing for these bulbs at this special low price we have adopted. We cannot take orders for less than fifty bulbs. Blooming size bulbs.

NEW GIANT SCILLA CAMPANULATA

We are pleased to again offer this new strain, which far surpasses the old types. Gracefully shaped, they make ideal cut flowers with long stems. They resemble the hyacinth, but flower when the hyacinths are all through blooming. They are ideal for naturalizing, and may be planted in full sun, partial shade, or full shade. Bloom with the late Tulips. The following varieties are offered:

NEW LEUCOJUM VERNUM (Giant Snowdrop)

This is an early and most attractive spring flower. Reaches a height of approximately 10 to 12 inches, and bears nodding flowers of white, tipped with green. They should be planted in early fall in a good, well drained soil, about 4 inches deep, and are especially effective if planted 4 or 5 inches apart, in clumps. They bloom more satisfactorily after they have become well established. Bloom with the Tulips; excellent for use in Tulip arrangements.

\$1.40 per doz.; \$10.00 per 100.

MUSCARI (Grape Hyacinths)

This plant has foliage similar to that of Scilla, but the flowers are of entirely different form. Grapelike clusters closely set, and wonderful for use as a cut flower; splendid for naturalizing. Bloom with the Daffodils and Tulips. Height 10 inches.

HEAVENLY BLUE. 60c per doz.; \$4.50 per 100; \$40.00 per 1000.

AZUREUM ALBUM. White. New improved variety; flowers as large as the Heavenly Blue variety. Much larger than the old type. 95c per doz.; \$7.50 per 100.

CHIONODOXA (Glory-of-the-Snow)

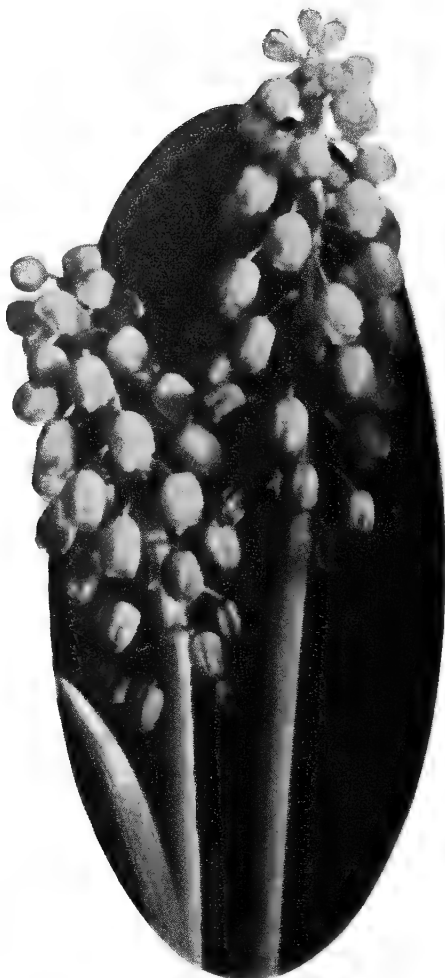

These lovely, earliest of spring flowers of deep blue, with a white center, attain a height of 7 inches and produce spikes bearing 10 to 15 scilla-like flowers. Iris Reticulata

(Bulbous)

This lovely species is one of the treasures of the garden or rock garden. It can be described as a small form of the Dutch Iris or Spanish Iris. Its main value lies in the fact that it can be forced into bloom in the house with the greatest ease. Six or eight bulbs put into a 4- to 5-inch pot when received, will bloom about Christmas time. The fragrant blooms remind one of a bunch of fresh Violets. Perfectly hardy with reasonable protection. It is one of the loveliest early flowering bulbs for the rockery.

\$1.65 per doz.; \$12.00 per 100.

Iris Reticulata

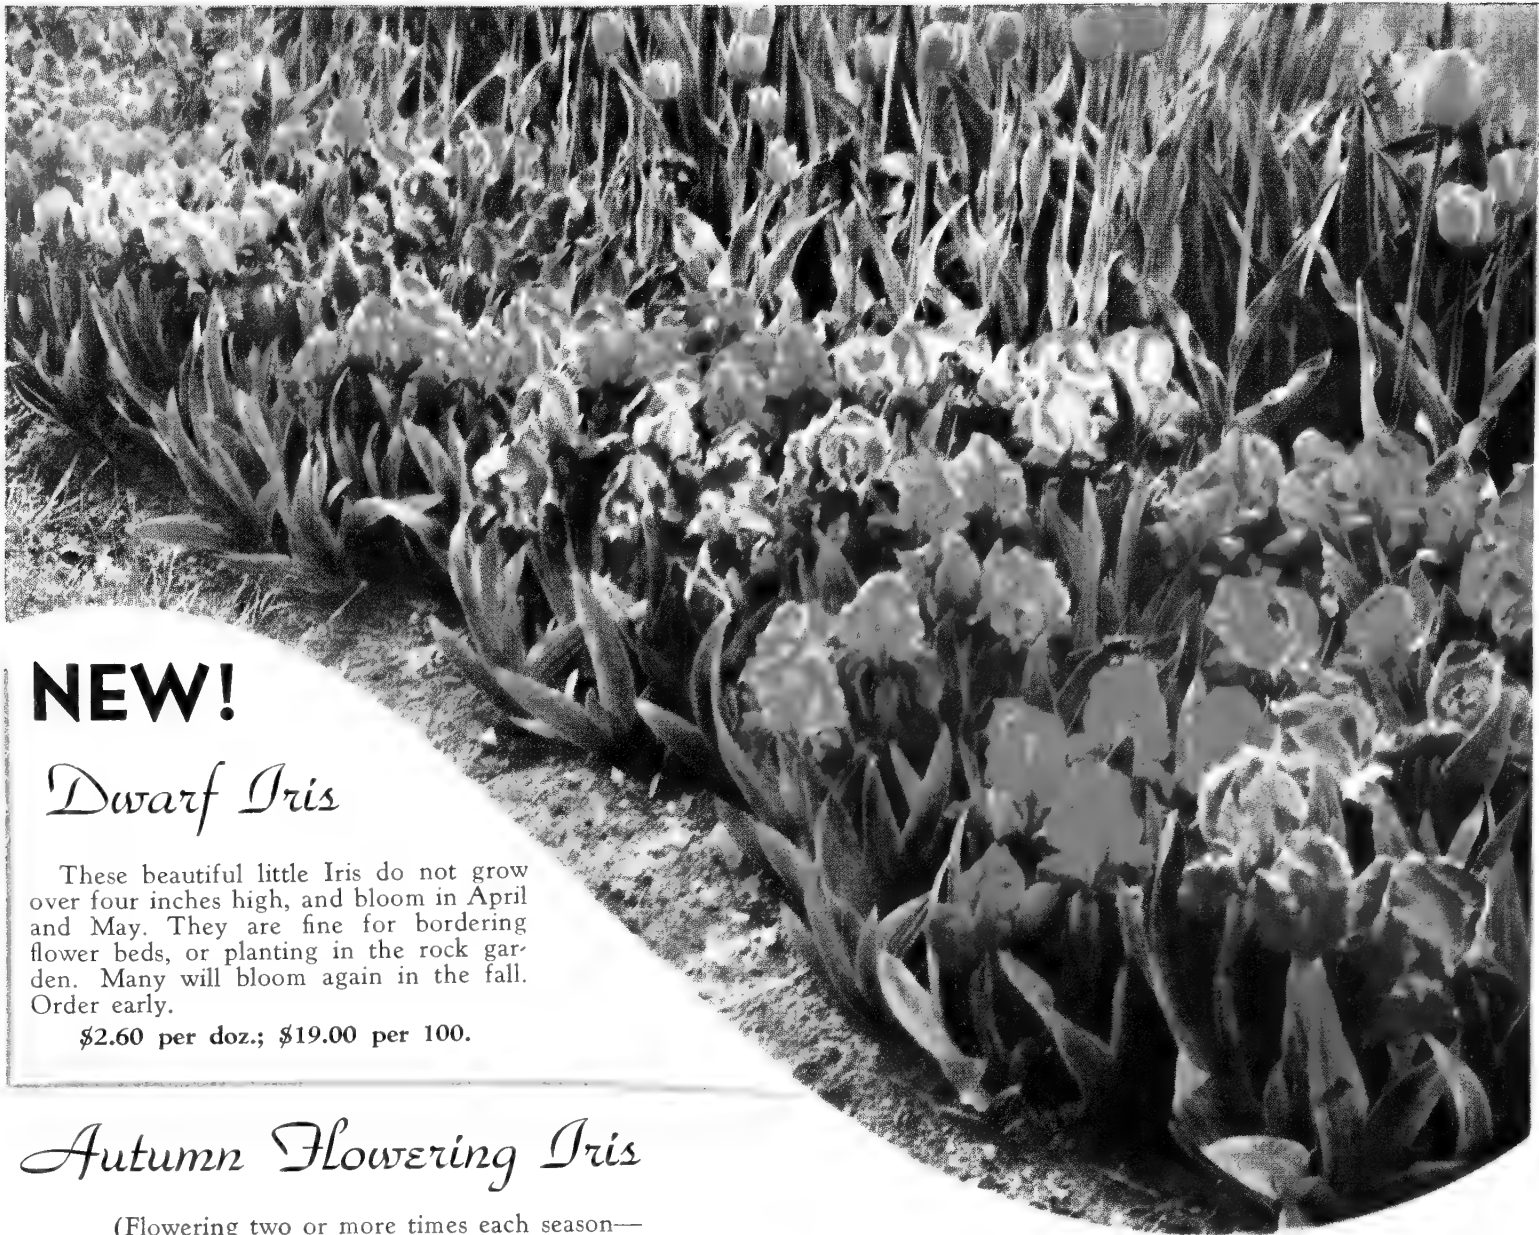

English Iris

(Bulbous)

This magnificent mixture of bulbous English Iris has been developed at our nurseries, and contains all the choicest varieties which can possibly be had in these fine Iris. The English Iris are a bulbous Iris which bloom in our latitude about the early part of July, and come after all other bulbous Iris. They should be planted as soon after receiving them as possible for best results. They prefer the more moist and heavier soils, and should have good drainage. The blooms of the English Iris are considered to be the finest of any in the Iris class, and each individual bloom is strikingly beautiful, and as cut flowers they are unsurpassed. We are offering them in a fine mixture of colors.

Dwarf Iris

These beautiful little Iris do not grow over four inches high, and bloom in April and May. They are fine for bordering flower beds, or planting in the rock garden. Many will bloom again in the fall. Order early.
\$2.60 per doz.; \$19.00 per 100.

Autumn Flowering Iris

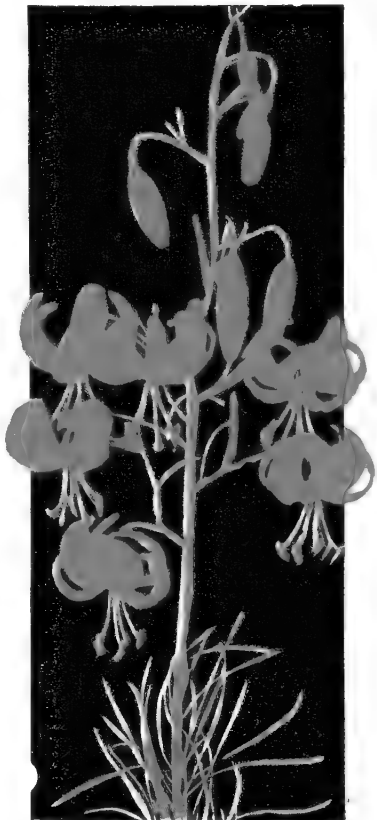

(Flowering two or more times each season—both spring and fall)

We take great pleasure in offering this list of the finest fall bloomers in cultivation. While best results are secured with these Iris below the Mason-Dixon Line, with a little care we have obtained excellent fall bloom in Michigan. Some of the varieties listed not only bloom profusely early in the spring, but under favorable conditions also produce crop after crop of flowers in late summer and fall. There are as yet comparatively few of these Iris in existence, and the demand has been so great that we, as well as the few growers of fall bloomers, could fill only a small portion of the orders received last year. Please order early.

Superior Brand Peat Moss

Nature's Way to a Productive Soil

Plants are living, growing things, and need a congenial environment. This means a favorable climate, and more important still, a correct soil. Soil is made up of two kinds of material; mineral or inorganic; and vegetable or organic. Both are essential sources of plant food, but the organic material (called humus) plays by far the most important part. Peat Moss is the most desirable type of humus known. It is pure vegetable matter that improves soils that are too sandy by giving them body and coherence, and it gives life and porousness to heavy soils.

Superior Brand Peat Moss is excellent as a mulch. A layer of the loose, fluffy material on top of the ground will greatly check evaporation. Applied from one to five inches deep it conserves soil moisture and prevents erosion. In winter it protects plant roots from severe cold.

Superior Brand Peat Moss is sold in bags, each containing two bushels. We will ship by freight, charges collect. Shipping weight of two bags, about 100 pounds. Each bag contains about 2 bushels of Peat. Do not order less than two bags.
